

Scammers impersonating The Straits Trading Company Ltd on messaging platforms

8 Aug 2022

In recent times, scams and impersonations have become more rampant and there is a surge in illicit activities targeting unsuspecting individuals in Singapore.

We have become aware of scams that have arisen from time to time where perpetrators have sought to impersonate The Straits Trading Company, the Straits Trading Shareholders' Club, and/or our Executive Chairman.

These scammers have reached out to members of the public using the Telegram and Whatsapp messaging applications, offering to provide information on investment opportunities, and directing members to other messaging channels for more information. We urge you to exercise caution and to conduct the necessary due diligence.

The Straits Trading Company takes a serious view in protecting the interests of the business and its shareholders and have lodged a police report in Singapore to notify the authorities.
